CDA Hosts Korean Delegation at O'Hare International Airport

Today, the Chicago Department of Aviation (CDA) hosted Mr. Jong-Hwan Chung, Minister of Land, Transport, and Maritime Affairs - Republic of Korea, and a delegation from the Korean Ministry of Land, Transport, and Maritime Affairs of Incheon International Airport Corporation and Korean Air at O'Hare International Airport.

The delegation met with CDA Chief Operating Officer Khaled Naja and senior staff members during their visit, which included a presentation and discussion about of the construction activities and sustainable initiatives taking place at Chicago's airports, as well as a tour of O'Hare's airfield.

Since 2009, the CDA has hosted numerous international delegations from Latin-America; the Caribbean; Changi, Singapore; Belgrade, Serbia; Abu Dhabi, UAE; Beijing, China; Incheon, South Korea; Henan Province, China, Russia; and countries of the former Soviet Union and the United Kingdom.

For more information on the CDA's Sustainable Airport Manual, please visit: www.airportgoinggreen.org.

~ ~ ~

The Chicago Department of Aviation (CDA) is self-supporting, using no local or state tax dollars for operations or capital improvements at O'Hare and Midway International airports. Together, Chicago's airports generate more than \$45 billion in annual economic activity and create 540,000 jobs for the region. Please visit www.flychicago.com to learn more about the Chicago Department of Aviation.

The CDA continues to incorporate and expand sustainable initiatives for airport planning, operations and maintenance, concessions and tenants in accordance with the CDA Sustainable Airport Manual (SAM), released in August 2009. To view case studies, lessons learned and new technologies, and for more information on the SAM, please visit www.airportgoinggreen.org.

The O'Hare Modernization Program (OMP), introduced by Mayor Richard M. Daley in June 2001, transforms O'Hare's airfield from an outdated system of intersecting runways into a modern parallel runway configuration. The program will reduce overall delays at the Airport by 79 percent, and bad weather delays by 95 percent. It will create 195,000 new jobs and \$18 billion in additional economic activity each year. Please visit www.oharemodernization.org to learn more about the OMP.
